PROFESSIONAL SUMMARY

Full-stack web developer with expertise in modern web technologies including React.js, Next.js, Node.js, and MongoDB. My unique blend of web development skills and digital marketing background enables me to create websites that not only function flawlessly but also drive conversions and business growth. With strong data analysis capabilities and SEO expertise, I build web solutions that are optimized for performance, user experience, and search engine visibility.

TECHNICAL SKILLS

Frontend Development

- **React.js & Next.js** - Modern web applications with server-side rendering and static generation
- **HTML5 & CSS3** - Semantic markup, CSS Grid, Flexbox, and modern CSS features
- **JavaScript ES6+** - Advanced JavaScript patterns, async/await, and modern web APIs
- **Tailwind CSS** - Utility-first CSS framework for responsive, maintainable designs
- **Progressive Web Apps (PWA)** - Service workers, offline functionality, and app-like experiences

Backend Development

- **Node.js** - Server-side JavaScript development and RESTful API creation
- **MongoDB** - NoSQL database design, optimization, and aggregation pipelines
- **Firebase** - Real-time databases, authentication, cloud functions, and hosting
- **Express.js** - Web application framework and middleware development
- **API Integration** - Third-party APIs, webhooks, and microservices architecture

CMS & E-commerce

- **WordPress** - Custom theme development, plugin creation, and performance optimization
- **Shopify** - Custom development, theme customization, and app integration
- **Headless CMS** - Strapi, Contentful integration with modern frontends

Development Tools & DevOps

- **Git & GitHub** - Version control, collaboration, and CI/CD workflows
- **Webpack & Vite** - Module bundling and build optimization
- **Docker** - Containerization for development and deployment
- **Vercel & Netlify** - Modern deployment platforms and serverless functions

Analytics & SEO

- **Google Analytics 4** - Advanced web analytics and conversion tracking
- **Google Tag Manager** - Complex tracking implementations and tag management
- **Technical SEO** - Core Web Vitals, schema markup, and search optimization
- **Data Analysis** - Python (Pandas, NumPy), Excel for web performance insights
- **Performance Optimization** - Lighthouse optimization, lazy loading, and caching strategies

Additional Skills

- **Content Creation** - Adobe Premiere Pro, CapCut, Canva for web multimedia
- **AI Tools** - Integration of AI services and automation in web applications
- **Digital Marketing** - Conversion optimization and user behavior analysis

PROFESSIONAL EXPERIENCE
